

Q Mobile

Mobilize Your Retail Business Intelligence

In today's world time is critical. With Q Mobile retail executives can get the latest insights and take immediate action from any location - the home office, a conference room, in the field, and while traveling. The QuantiSense Decision Orchestration Platform™ can be accessed from a web browser or as an app on the iPad, iPhone, or iPod touch, improving communication and keeping merchants, marketing and store operations all on the same page.

Maximize Profits with Mobile Merchandising

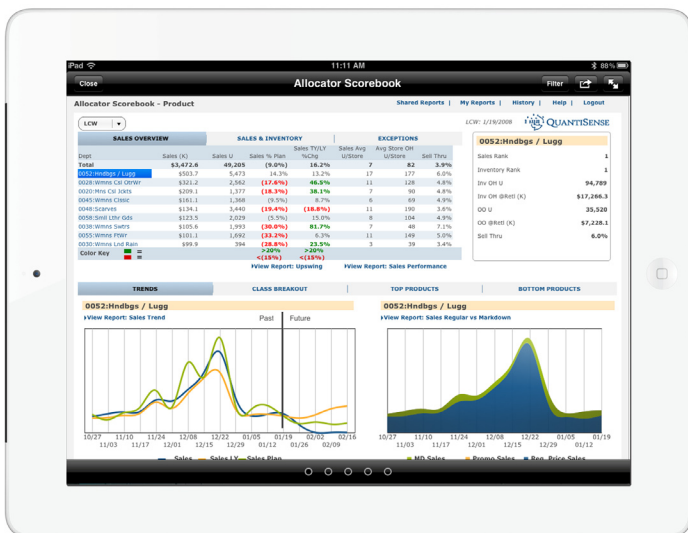

Imagine the ability to provide real-time drill downs in Monday morning meetings. For merchants at headquarters, Q Mobile increases portability, practically eliminating the need for printed reports. In addition to merchandising executives, QuantiSense offers personalized Retail Scorebooks™ and Retail Playbooks™ for the entire team, including Buyers, Planners and Allocators. Mobile access to retail business intelligence fosters increased collaboration, since analytics can be accessed on the go.

Empower Store Ops with Mobile KPIs

Q Mobile empowers district and regional store management with the latest insights and suggested Plays while out in the field. Store operations personnel also leverage Q Mobile to see all the data on sales, inventory, and employee productivity at their fingertips while on the store floor. And that means less time spent in the back office sifting through reports.

What's the end result? Q Mobile means you have more productive conversations with the ability to take immediate action instead of waiting until you return to your desk.

Decision Orchestration: Defining the New Rules for Retail

Today's retail environment requires a shift from using analytics to report past results to proactively shaping future performance. Retailers need a predictive analytics solution that makes business intelligence actionable and best practices repeatable throughout the organization. The QuantiSense Decision Orchestration Platform reduces the time spent digging through mountains of data, so your team has more time to think strategically.

Actionable Analytics Deliver Rapid Results

Whether you are building your first data warehouse or taking your BI initiatives to the next level, the QuantiSense Decision Orchestration Platform can help. In as little as 60 days, your organization will be better equipped to make decisions that achieve operational excellence and ultimately delight the consumer. Retail results include:

- Reduced stockouts by 12%
- Improved turnover
- Increased Gross Margin by 120 basis points
- Reduced aged inventory
- Raised service levels from 64% to 95%

Q Foundation

Jump start your data warehouse with a finely tuned data model and bullet-proof ETL systems that provide data integrity from any retail data source, using the database platform of your choice.

Q Merchandising

Improve sales, inventory productivity and profitability by providing actionable insight and repeatable best practices across the entire merchandising function.

Q Direct

Increase e-Commerce and catalog revenue by analyzing and improving the direct to consumer order cycle and inventory allocation.

Q Store Ops

Boost store performance through analysis of sales, labor productivity, traffic patterns and transaction quality.

Q Mobile

Benefit from insights and plays on the go – during Monday morning meetings or on the store floor – via web browser or as an iPad, iPhone or iPod touch app.
